Expanding the Carbon Offset Market for Working Rangelands in the Northern Great Plains

2015 CIG Funded Project
Lead: Billy Gascoigne, Ducks Unlimited

“This material is based upon work supported by the Natural Resources Conservation Service, U.S. Department of Agriculture, under NRCS Conservation Innovation Grant
Grassland Carbon Program Snapshot
Key Objectives

- Review/revise ACR’s ACoGS protocol—create a V. 2.0
- EQIP-eligible landowner engagement, goal of GHG contracts on another 10,000 acres
- Bring additional credits to market, goal of another 50,000+ and execute sale on voluntary market
